

## INFORMATION PUBLICATION SCHEME

### Purpose

RIC's Information Publication Scheme (IPS) Plan shows:

- What information RIC publishes.
- How the information is published.
- How the RIC complies with the IPS requirements under section 8(1) of the *Freedom of Information Act 1982* (the FOI Act).

### Objectives

RIC's IPS objectives are to outline appropriate mechanisms and procedures to:

- Manage the IPS information relevant to RIC's compliance with the IPS.
- Identify and publish all information legally required to be published in accordance with section 8(2) of the FOI Act.
- Identify and publish optional information, in accordance with section 8(4) of the FOI Act.
- Ensure IPS information is accurate and up-to-date and in accordance with the IPS.
- Make arrangements so that information published under the IPS is easy to locate, understandable and machine readable.
- Make arrangements so that the format of online content complies with Web Content Accessibility Guidelines.

### Implementing the IPS

RIC's approach to implementing its IPS is:

- FOI Officers are responsible for ensuring RIC's compliance with the IPS.
- Publish the IPS and a 'disclosure log' of information released in response to FOI requests on the RIC website.
- Review the IPS at least twice a year to identify any new/updated IPS information holdings and ensure that the information is up-to-date and published.
- Consider comments and feedback from our stakeholders and the public when determining whether IPS information holdings are easy to locate, understandable, machine-readable, accessible and useable, accurate, up-to-date and complete.
- Wherever possible, provide online content.
- Provide a website search function.
- Consult with RIC's Communications and Marketing Team to ensure all publications meet Web accessibility standards prior to publishing or make a document available in an alternative format if an accessible format is not yet available.
